

University Exhibit

On behalf of the IEEE Antennas & Propagation Society, we cordially invite you to take part in the 2014 IEEE International Symposium on Antennas and Propagation and USNC-URSI Radio Science meeting, July 6-12, 2014, at the Memphis Convention Center, Memphis, Tennessee, USA. The 2014 IEEE APS-USNC-URSI Symposium is the premier international forum for the exchange of information on state-of-the-art research in antennas, electromagnetic wave propagation, radio science, and electromagnetic engineering. This symposium and meeting are co-sponsored by the IEEE Antennas and Propagation Society (AP-S) and U. S. Committee of the International Union of Radio Science (USNC-URSI). The symposium generally attracts over 1,500 attendees from around the world. 80% attendance at the symposium comprises of faculty, researchers and students from various universities across the world.

This year we are adding a new feature “**University Exhibit**” to promote research labs at various universities that work and excel in the area of antennas and propagation. The University Exhibit provides an excellent opportunity for research centers at universities to display their research work, projects, interactive displays and video clips of current and past projects.

Benefits:

- Promote your lab/center expertise among peers and current/future sponsors
- Great opportunity to attract graduate student talent to your lab/center
- Solid technical program to draw attendees from around the world
- Additional attendance with the USNC-URSI Radio Science Meeting
- An exhibitor committee staffed with experienced exhibiting, sales, and marketing professionals
- Memphis, Tennessee’s many free museums and world renowned music scene, makes this city an emerging cultural and entertainment destination of the Southeast

University Exhibits will be located in the hallways and around the conference area to provide maximum interaction with conference attendees. All University Exhibits will be tabletop displays that include 2’DX6’W draped table.

The special reduced cost of University tabletop exhibit is US \$1,500. To sign up, please contact the CMS Exhibits Manager, Della Smith. <dsmith@cmsworldwide.com>

To find out about more about exhibiting and sponsorship opportunities, please visit this page of the conference website: <http://www.2014apsursi.org/SponsorInfo.asp>. We hope that you will be able to join us in Memphis in July 2014 for the IEEE APS-USNC-URSI.
